BASEMENT

LATE-NIGHT SOFTWARE

Basement Media, LLC is a small, independent software studio in Central Florida. We build late-night software for guitar players, movie nerds and self-hosters, and we take on client projects.

What we do

- Custom software projects under a Master Services Agreement and per-project Statements of Work
- Mobile apps (iOS, Android), web apps and self-hosted servers
- Licensing enquiries welcome for studio technology (tone matching, show control)

Background

Founder Randy Ridgley has spent 25+ years building technology for theme parks, casinos and entertainment companies.

Products

- **CrackThatTone** (live): hear a tone you love, get the settings for the gear you own. iPhone, crackthattone.com.
- **Basement** (coming soon): a self-hosted media server for your movie, TV and music library, with free iOS, Android and web apps.
- **Lair** (coming soon): show control for tabletop RPGs: lights, sound and effects on cue.
